

Loading SailConnect on an iPad

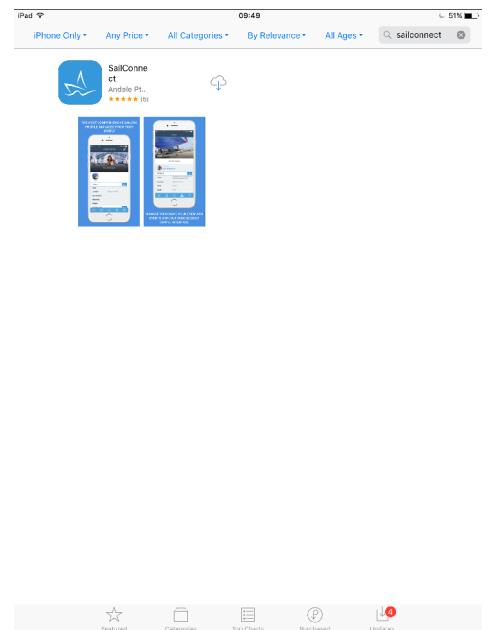

SailConnect is a smart phone app and released as an iPhone supported app in the Apple App store. However, even though it is not optimized for iPad, you can use it on an iPad. To download, either click the app store link from our web site or search in the app store following the steps below.

iPads running iOS 10

Step 1. Change settings as shown to 'iPhone only'

Step 2. Search for SailConnect

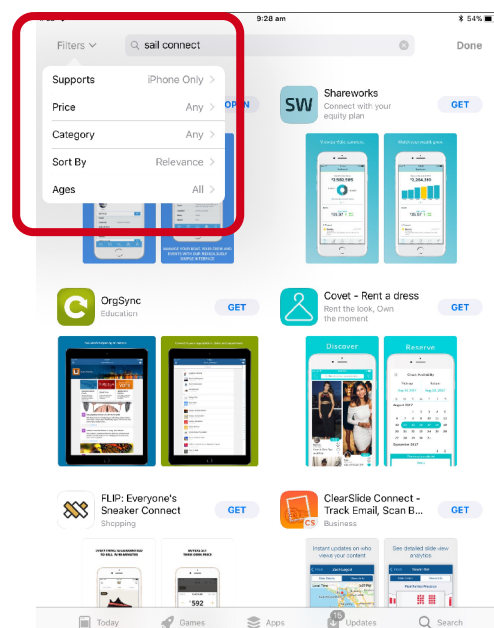

iPads running iOS 11

iOS 11 has changed how a user searches for iPhone apps on iPad

Step 1. Search for Sail Connect
NB: with a space, not one word

Step 2. Once results have been returned, click FILTERS
NB: you must have search results to be able to change filters

Step 3. Change 'Supports' option to 'iPhone only'
This should now display SailConnect
